

# Intro to College Math Semester 1 Project

**Due Date: 12/16/2019**

You are being asked to create 5 math questions that cover topics covered this semester. You may use any topics this semester. You may use past homework, quizzes, and tests as a guide to complete the assignment. This is an individual project meaning every person should work alone. You may make multiple choice or grid-in question. In either case you will need to create the question, have the correct answer, and show the work of how you arrived at the correct answer for the question.

- If you make a free response question you only need to create the question show the work and give the correct answer for the question.
- If you make a multiple choice question you will need to show the work have the correct answer and also create the different choices, at least A-D options you may have A-E options.
- You must create at least one question per units, we covered chapters 1 & 2 and part of 5.

All questions need to be typed but the work may be hand-written. All work that is hand-written needs to be legible, otherwise you will be deducted points. If you have any questions please email, [corella@damien-hs.edu](mailto:corella@damien-hs.edu), or ask during class. Examples are posted on Moodle.

Assignments that are not submitted by the due date will be deducted 10% from the grade earned each day it is late. **If You do not turn in the project by 12/20 you will receive a grade of zero. If you are not able to show up to class email a picture by the end of the school day on 12/20.**
